

# NNEdPro Global Centre for Nutrition and Health

*Improving health through medical nutrition knowledge*

Written on behalf of the NNEdPro Group by **Prof Sumantra Ray** and edited by **Shivani Bhat**

*Wolfson College, Cambridge*

## A Cambridge based dual approach to capacity building in clinical and public health nutrition

As the NNEdPro Global Centre now operates over a number of regions worldwide, promoting the translation of evidence-informed nutrition knowledge through education into practice, it is important to maintain a central annual hub for nutrition education and training. We endeavour to do this through our Cambridge based annual Nutrition Summer School and Summit in Nutrition Education & Research. The Summer School provides a 'Train the Trainees' platform that is internationally responsive to expressed need and adapted to our learnings from across global networks. The faculty from the Summer School are then joined by a number of other current and prospective faculty in Nutrition from across several countries for the Summit which takes a 'Train the Trainers' (including the trainers of the future!) approach to fine-tuning as well as up-scaling efforts to translate nutrition knowledge to those parts of the healthcare workforce not previously exposed to the discipline. Typically the Summit also allows consensus on healthcare nutrition education and research strategies across borders. With this two pronged approach and with widening participation, we hope to build a critical mass of both trained individuals as well as trainers, well equipped to face the triple burden of nutritional disorders (Over- and under-nutrition as well as micronutrient deficiencies) and the challenges set by the UN decade of action in Nutrition (2016-25) requiring both clinical and public health nutrition as well as a range of stakeholders to act in unison.

## Cambridge Summer School in Applied Human Nutrition

A comprehensive Foundation Certificate Course in Applied Human Nutrition for professionals in health and health-related sectors

28th – 31st July 2017, Wolfson College, University of Cambridge, UK

### 4 DAY COMPREHENSIVE FOUNDATION CERTIFICATE COURSE IN APPLIED HUMAN NUTRITION

#### • Basic Concepts in Human Nutrition

Including dietary assessment, body composition and energy metabolism

#### • Nutrition Research Methods

Including nutritional epidemiology, nutrigenetics, nutrigenomics and diet-microbe interactions in the gut

#### • Nutrition in Disease Prevention

Including non-communicable diseases, musculoskeletal health and neurodegenerative diseases

#### • Nutrition in Healthcare

Including hydration and clinical leadership, clinical ethics, malnutrition in practice and ageing

#### • Nutrition Public Health and Policy

Including global nutrition, nutrition and health claims regulation, policy formulation and industry case studies

#### BENEFITS INCLUDE:

- World class faculty in Cambridge and teaching from leading global nutrition experts
- Professional course accreditation and membership of the NNEdPro Global Training Academy
- Complimentary registration for the NNEdPro International Summit on Medical Nutrition Education and Research
- Evening networking and social programme, including the opportunity to experience a traditional Cambridge 'Formal Hall' Gala Dinner at Downing College
- This course is open to health professionals and those in health-related sectors

*Organised in partnership with the University of Cambridge Institute of Continuing Education*

## 3rd International Summit on Medical Nutrition Education and Research

1st – 2nd August 2017, Wolfson College, University of Cambridge, UK

#### THIS YEAR OUR CORE THEME IS 'RESEARCH TO PRACTICE'

- **Day 1:** The Importance of Nutrition in Healthcare
- **Day 2:** Implementation Science and Medical Nutrition Education

*Registration is available for one or both days.*

#### POSTER PRESENTATION

**Abstract submissions of original research are accepted by email to: [info@nnedpro.org.uk](mailto:info@nnedpro.org.uk) for presentation on each day.**

- Max. 250 words
- Email Subject Heading: Summit 17 Poster Abstract
- Deadline: May 26, 2017

#### EXPERT PRESENTERS

- Cambridge-based and international Faculty from across four continents
- Nutrition in Pharmacy National Essay Competition
- GODAN [www.godan.info](http://www.godan.info)
- Interactive sessions and much more...

*Organised in partnership with the British Dietetic Association and Global Open Data for Agriculture and Nutrition*
