With the challenges in definitions of food and nutrition security, what are some of the strategies we can apply to standardize the definitions.

Key partners - FAO

Working with

other key partners for us now includes UK Gov departments and changing legislation

Stakeholder mapping exercise could be helpful initially

Perhaps a debate how food can be used as a 'weapon' and a tool to control populations during conflict and in peace? Then look to

leveraging off
existing works ea:

Can help with local Knowledge, intergenerationaland tribal food practcies - Anuprita
