

12th INTERNATIONAL SUMMIT ON FOOD, NUTRITION AND HEALTH

Human Skills, Artificial Intelligence and Global Challenges

From Ethics and Inequalities to Sustainability and Impact

Proposed Thematic Tracks for 2026

ETHICS &
GOVERNANCE – FAIR,
TRANSPARENT,
RESPONSIBLE AI.

INNOVATION &
IMPLEMENTATION –
PRACTICAL AI TOOLS
IN FOOD, NUTRITION
AND HEALTH.

RESEARCH FRONTIERS
– DATA SCIENCE AND
EMERGING
APPLICATIONS.

EDUCATION &
CAPACITY BUILDING –
DIGITAL LEARNING
AND ILLITERACY.

SUSTAINABILITY &
GLOBAL IMPACT –
CLIMATE RESILIENCE
AND PLANETARY
HEALTH.

Why This Theme Matters

Why AI & Human Skills Matter Now

- AI is transforming research, education and practice across food, nutrition and health.
- Ethical and equitable implementation is essential to reduce global inequalities.
- Summit 2026 supports Target 2030, driving sustainable and inclusive progress.
- Addressing climate, health and nutrition challenges requires human - AI collaboration

Guiding Pillars Driving Innovation & Impact

- Food – Safe, sustainable, equitable food systems.

- Nutrition – Evidence-based diets and population health.

- Health – Improved clinical outcomes and disease prevention.

- Research – AI-enabled discovery and predictive modelling.

- Education – Capacity-building and digital learning.

- Sustainability – Planetary health and environmental stewardship.

Expected Outcomes

- Strengthen evidence-based AI applications in food, nutrition and health.
- Advance ethical, equitable AI frameworks globally.
- Foster interdisciplinary and cross-sector collaborations.
- Produce actionable recommendations aligned with Target 2030 milestones.
